The screenshot shows the Chrome DevTools Network tab. The top bar indicates 15 errors, 5 warnings, and 25 messages. The 'Network' tab is selected, showing a list of requests. The first request, 'olenaF', is highlighted in red, indicating a failure. The 'Response' tab is open for this request, showing a JSON object: `{ "code": 200, "type": "unknown", "message": "olenaF" }`. The status bar at the bottom shows '1 requests' and '254 B transferred'.

GET

/user/{username} Get user by user name

Server:	Jetty(9.2.9.v20150224)

POST

/user/createWithArray

Creates list of users with given input array

⌵

POST

/user Create user

⌴

This can only be done by the logged in user.

Parameters

Cancel

Name	Description
body * required object (body)	Created user object <div>Edit Value Model</div> <pre>{ "id": 0, "username": "antonX", "firstName": "anton", "lastName": "Xodo", "email": "ol@h", "password": "pass1", "phone": "05098656", "userStatus": 0 }</pre>

A screenshot of the Chrome DevTools Network tab. The top bar shows the 'Network' tab is active. Below the toolbar, there are filters for 'All', 'Fetch/XHR', 'Doc', 'CSS', 'JS', 'Font', 'Img', 'Media', 'Manifest', 'WS', 'Wasm', and 'Other'. The 'Fetch/XHR' filter is selected. The list of requests shows a single request named 'user' with a status of 'Failed'. The 'Preview' tab is selected for this request, displaying a JSON response: {code: 200, type: 'unknown', message: '9223372036854767872'}. The status bar at the bottom indicates '1 requests' and '267 B transferred'.

POST

/user/createWithArray

Creates list of users with given input array

▼

POST

/user Create user

▲

This can only be done by the logged in user.

Parameters

Cancel

Name	Description
body * required	Created user object
object (body)	<div>Edit Value Model</div> <pre>{ "id": 0, "username": "antonX", "firstName": "anton", "lastName": "Xodo", "email": "ol@h", "password": "pass1", "phone": "05098656", "userStatus": 0 }</pre>

The screenshot shows the Chrome DevTools Network tab. The 'user' request is selected, and the 'Response' tab is active. The response is a JSON object: `{ "code": 200, "type": "unknown", "message": "9223372036854767872" }`. The status bar at the bottom indicates '1 requests' and '267 B transferred'.

POST
