Find the bugs in the picture

https://drive.google.com/file/d/1PeoSh5yUXFD7AmdUx9cUrVlk4MRXfy9Y/view

1. All users have the same avatar in the user history of the QA Test project
2. The font size of the TODO board header is different compared to other boards
3. In "activities", user Bender Rodriguez moves the "Write user story for user sign up" card from the non-existent UNDO board
4. The "filter" icon is moved to the left in the menu tab on the right side of the page
5. Localization nonconformity, not all words in the text are in English (prive` is a word in another language)
6. The container of the Done board does not adjust to the contents of this container, it is not flexible (there is too much space under the three cards)
7. The sign "+" (add another board) in the header is not aligned with other elements. Must be placed after the search field
8. The word "Invite" is at the bottom of its container in the Menu
9. The board archive is displayed on the webpage.
   Add info: (The archive should be hidden)
10.　There is one card with the value (null) in the "Archivee" board.
   Add info: That is, it should be and is empty by default (there is no reason to archive non-existent information)
11.　In the header, in the search field, the "search" sign is on the right.

Add info: (Following usability, you need to set the "search" sign in the search field on the left)

12. Inconsistency of card colors according to the degree of completion of the task or failure to meet deadlines in the "to do", "in progress", "done" boards

    Add info: To indicate the degree of completion of the task in the cards, colors are used not according to their purpose, that is, if, for example, the task is completed, it is transferred to the DONE column and marked in green, why then the IN PROGRESS card has a task marked in green.

13. In the "Activity" field, user actions are not displayed by the time when the change was saved

14. In the DONE board in the "Design color schema" card, the deadline (1AUG) is shown twice.
